Statement on corona virus issue - status week 17/2020

Dear Ladies and Gentlemen,

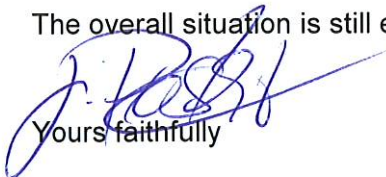

On the last weekend the Tunisian government has announced that as from May 4, 2020 all export companies can resume work, provided that the Tunisian case numbers remain stable and will not develop negatively. A concretisation in relation to the case numbers unfortunately is not available, so that we do not know absolute numbers and are not able to figure them concerning this matter.

Kaschke Components, as an affected company, hopes and relies on a positive development and that we will be allowed to ramp up our production in accordance with the governmental announcement.

Our company will do everything possible to get controlled into normal operation as soon as possible and is intensively working on modification of working conditions to be "Corona-equitable" - that includes workplaces, social areas and sanitation and means that infections will be prevented as effective as possible.

In this extraordinary situation we would like to ask you for your understanding that through these measures our reactivity will be significantly limited and that it will lead to massive delays in processing and executing of activities at all levels of our business.

The overall situation is still extremely tense – we will keep you updated!

Yours faithfully

Josef Postert (Prokurist)
