Statement on corona virus issue - status week 27/2020

*Dear Ladies and Gentlemen,*

*fortunately, in the past weeks we could adhere to our ambitious plan to work in our Tunisian factories without any disturbances.*

*The infection rates in Tunisia are still on a pleasing low and stable level. Furthermore, Kaschke Components Tunisie S.A.R.L. has been awarded by the Tunisian overnment for its excellent preventive measures in the course of the control against the corona pandemic:*

*This is an official confirmation for our considerate and cautious approach for our customers, as well as our employees, to be able to sustainably secure this stable situation.*

*On Saturday, June 27, 2020, the borders have been re-opened by the Tunisian government. It has also been implemented a „traffic light system“ on the travel restrictions which permits the entry from different countries without any restrictions:*

*(<https://www.tunesienexplorer.de/2020/06/25/klassifizierung-der-einzelnen-laender-zur-einreise-stand-24-06-2020/>).*

*It has been determined within this system that persons from countries with a low epidemic prevalence are not being subject to special preventive measures any more.*

*Since calendar week 25 we are back at 100% of our production capacity and we are on right on track to reduce the still existing backlogs to the greatest possible extent within the near future. All existing orders have been reset, newly planned and confirmed.*

*Due to the shutdown of our premises in Tunisia unfortunately we were not able to fulfil all customer requests to your utmost satisfaction. But please do not hesitate to contact us, if you are facing difficulties caused by non-supply by Kaschke.*

*We keep working intensively for helping all customers to greatest possible extent, given that our utilization as well as the significant extent of backlogs will allow it.*

Yours faithfully

Hagen Fuchs
